

YOUR CRITICAL DATA. PROTECTED.

In a modern business, you simply can't afford to suffer disruption or lose access to your critical data and applications. Such disruption can have a significant impact on your productivity, which in turn impacts everything from customer experience to profitability. Having a solution in place to protect your environment and provide you with peace of mind that it can be recovered quickly is key.

CiCloud BaaS offers highly secure backup of your IT environment with super fast recovery. Be supported by a fully managed and monitored service that can host your most critical applications and data in a Tier 3 data centre, completely tailored to your needs and scalable as you grow.

FEATURES AND BENEFITS

4 STEPS TO SUCCESS

1. Choose your data

Choose which data and services need to be backed up, whether it's the data that's required to survive and thrive or comply with relevant standards.

2. Select frequency

CiCloud supports hourly, daily and weekly backups to make sure you get the timeframe you need to recover to a known good state.

3. Add services

Opt in or out of Centerprise management and support services to suit your needs.

4. Roll-out

You're ready to roll-out your BaaS solution and start getting peace of mind your data is available should you need to recover it.

WHY CI CLOUD?

Fast recovery

CiCloud is designed around offering super-fast recovery for the most critical data, meaning you can be back up and running in the event of a data loss as soon as possible.

Premium Support

24x7x365 online support from certified and knowledgeable engineers, underpinned by guaranteed SLAs.

High Performance

Built on agile and elastic architecture with reliability built in and utilising rapid, repeatable and bespoke provisioning to deliver industry-leading performance.

Guaranteed UK Data Residency

CiCloud BaaS offers the flexibility of both multi-tenanted public cloud and dedicated resources for virtual private cloud - all out of a secure UK data centre.

Visibility and Control

See all of your backups in one view and tailor the level of support you received to meet the needs of your organisation.

Certified and Compliant

Accredited and secure hosting facility that's compliant with all major industry standards, including ISO 27001, PCI-DSS, Trusted Cloud and fully GDPR compliant.

Lower TCO

Our solution is proven to be at least 20% less than the public-cloud hyper-scalers in our target markets.

Green Credentials

Located in the Ark Data Centre, CiCloud is direct air-cooled and has a world-leading PUE of just over 1, making it up to 33% more energy efficient than the industry average.*

The Tools you Know

Built with simplicity in mind, CiCloud BaaS enables you to provision resources using the tools you are familiar with - no upskilling is required.

Cloud Without Limits

With no set backup sizing or limitations unlike other cloud platforms, CiCloud BaaS allows you to quickly provision the backup strategy that's right for your business.
